INTERNAL LINING

# INNOCLAD

## INTERNAL LINING

InnoClad Internal Lining is suitable for a range of internal lining applications where the look and feel of natural timber is desired. In addition to creating a stylish and warm interior finish, InnoClad Internal Lining is lightweight and offers outstanding acoustic performance. The ability to curve and bend InnoClad Internal Lining makes it ideal for any design specification.

### FLEXIBILITY

InnoClad Innovative cladding systems, that can be integrated into any internal lining design.

### CAPABILITY

InnoClad systems are capable of orientating either vertically or horizontally in order to deliver a clean finish with consistently spaced shadow / join lines.

### DESIGN INTENT

InnoClad system comes in varying widths and fixing methods thereby making it flexible to match the design specification.

### BENEFITS

Cladding that provides highly desirable warmth and character that comes from the closest composite to natural timber.
